Edmentum is grounded in a tradition of solid research, sound pedagogy, and applied innovation. We provide rigorous and relevant online educational products and services that will challenge your learners with a 21st century approach - engaging them with interactive, media-rich content, proven to be effective by third-party studies.

Our proven product offerings are as diverse as your learners’ needs, giving you effective educational options for every learner. Designed by educators, for educators, our comprehensive products provide the flexibility you need to easily fit into your district or school’s existing curriculum and programs. Edmentum brings new ideas you can trust to create a 21st century classroom for your students and increase learner achievement.

Edmentum partners with you to deliver comprehensive service offerings and industry leading expertise to ensure program success and drive student success. Our Edmentum consultants ensure a smooth implementation of your program, provide product training resources for you and your staff, deliver ongoing virtual workshops and monitor your success. Our live customer support team offers superior technical support as well as high-value instructional support to help educators gain the full value of their Edmentum programs.
Study Island’s high impact, high value standards mastery and test preparation programs are specifically designed to help your students master the content specified in state and Common Core standards. Study Island provides rigorous content that is highly customized to these standards, and enables students to improve their performance in core skill areas with a focus on math, reading/English language arts, science, and social studies.

- Ideal for grades K – 12
- Built-in remediation allows for differentiated instruction to help raise individual student achievement
- Students receive immediate feedback, question explanations, and all practice sessions are scored in real-time
- Build and schedule custom diagnostic, formative, and summative assessments
- Receive actionable, real-time assessment reports
- Teacher support tools include a teacher toolkit with lesson plans, instructional videos, and web- and print-resources

EducationCity’s web-based, instructional intervention tool provides fun and engaging student activities and teaching resources correlated to state and Common Core standards in language arts, math, science, and ESL.

Use EducationCity in the classroom or in the computer lab for reinforcement and enrichment.
