

Effective courses for student success

For many learners, regaining the educational ground they've lost can seem like an overwhelming task. Edmentum™ addresses those concerns with an online experience that is media rich and highly interactive, making credit recovery engaging and attainable.

For over 50 years, Edmentum has been providing proven, effective credit recovery solutions to school districts across the country. By focusing on instruction that fills learners' knowledge gaps and providing them with personalized learning experiences, we target the specific issues that have prevented students from moving forward in the past. The depth of research and the breadth of scope of Edmentum courses can help you create a credit recovery program that will make a real difference in the lives of your students.

The Edmentum difference:

- Exemptive pretests which precisely identify a student's knowledge gaps
- A personalized learning path prescribed based on pretest results
- A comprehensive 4x4 offering of rigorous full-semester courses based on state and Common Core standards
- Proven effective curriculum

Ideal for:

- At-risk students
- Summer school
- Remediation
- Alternative school

In creating this program, flexibility was key; we wanted to be able to give our students every opportunity and allow them to participate in the different activities to help them get to where they wanted to be both in academics and personal interests.

OUR PRODUCTS

Plato Courseware provides comprehensive, full semester secondary courses ideal for your credit recovery program. This highly interactive curriculum has been proven to enrich learners and achieve results. Exemptive pretests are available in each course giving the student the opportunity to show what they have already mastered. This precisely identifies the gaps on which each student must focus by prescribing a personalized learning path for efficient and effective course completion.

EdOptions ACADEMY™

EdOptions Academy combines engaging courses with certified online teachers specifically trained in online instruction. An effective credit recovery option for your students who have fallen behind, this fully-accredited online school offers the classes your students need to stay on track, in a learning environment in which they'll thrive.
