

# INTERVENTION & ACCELERATION

## Targeted, individualized instruction to support student achievement

Educators are challenged with finding solutions designed to engage, motivate, and improve achievement for all learners. Whether students are above, below, or on grade level, they must have a program that takes into account each learner's individual needs and learning styles. Edmentum's™ comprehensive suite of web-based solutions is designed to help educators accelerate learning for all students and provide individualized, data-driven instruction through engaging, web-based platforms.

### The Edmentum difference:

- Edmentum courses are powerful web-based solutions that personalize instruction through a customizable suite of products
- Edmentum programs support educators and offer individualized instruction for a diverse population of learners
- Edmentum's research-based programs drive instruction and promote student achievement

### Ideal for:

- Individualized, one-on-one intervention programs
- Small groups
- Students of all ages and ability levels
- Students who are home schooled or have schedule challenges

# OUR PRODUCTS

## Edmentum™ Assessments

Edmentum Test Packs with Prescriptions are grade-level, fixed-benchmark assessments. They provide personalized, prescriptive assignments, that target each student's areas of need. Edmentum Accucess is an innovative, formative assessment tool that allows teachers and schools to quickly and efficiently place learners on grade level in reading, writing, and math. In addition to the assessments, students are prescribed rigorous content that is designed to fill learning gaps and personalize the learning experience for individual students or an entire class.

## Study Island®

Study Island's programs are explicitly designed to help students master the content specified in state and Common Core standards. Study Island is ideal for self-paced, individualized learning or teacher-led, whole-class instruction. Teachers can easily guide students through the program, customize their instruction based on student needs, communicate expectations, and create assignments. The built-in teacher resources and real-time assessment data helps to identify areas in which students are struggling and excelling. This allows teachers to differentiate their instruction as needed.

## Edmentum™ Reading Suite

The Edmentum ReadingSuite is a complete line of online reading programs designed to help students learn to read, build comprehension skills, read at grade level, and develop English language proficiency. Students can take a diagnostic placement test in both Reading Eggs & Reading Eggspress to ensure that they are working at a level that matches their reading ability, or teachers can move students as needed. ESL ReadingSmart and ReadingMate are written for a variety of instructional levels and allow for easy differentiation based on individual student needs.

## EducationCity®

EducationCity's web-based teaching and learning resources support instruction for whole-class, small group, or one-on-one instruction. EducationCity supports individualized instruction with built-in prescriptive tools and teacher resources. Teachers are supported with classroom tools and standards maps that link standards-based learning objectives to student activities, all while tracking student success through real-time progress monitoring reports.
