

Allied Health

Northstar Workforce Readiness' Allied Health programs provide tools for insightful intervention combining academic assessment, engaging and research-based instructional resources, and advanced teaching practices to support each learner's individualized instruction. Each program is built from the content specifications of each certification or licensing exam.

Massage Therapy Exam Review

Exam preparation and intervention programs are vital to helping learners achieve their college and career goals. As your learners prepare for their Allied Health certification and licensing exams, it is important to make sure they are focused on the correct learning objectives.

Northstar Workforce Readiness helps students prepare for the National Certification Exam for Therapeutic Massage and Bodywork (NCETMB) or the Massage and Bodywork Licensing Exam (MBLEx) with online practice and preparation. Our programs follow the formatting and specifications of these exams, with full-length practice tests available at any time.

The content is great and it's in the same technique that I instruct my course. I really feel this is an excellent tool for online review for board exams and certifications for all my Allied Health programs.

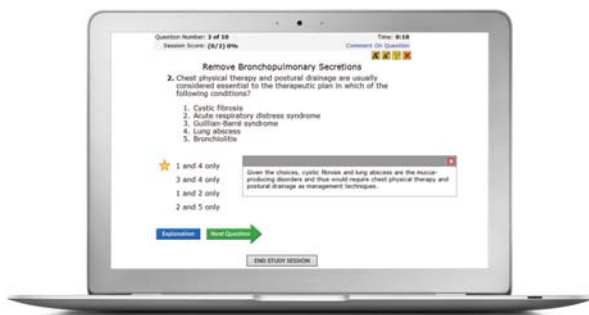

Sheri, Health Care Education Director

Why it works

Northstar Workforce Readiness' post-secondary Allied Health programs provide:

- 24/7 anytime, anywhere access with immediate feedback
- Real-time reporting and grading to help inform instruction
- Resources for intervention, retention, and skills mastery
- Rigorous, high-quality content for practice, instruction, and review
- Content that is fully customizable
