- Individualized learning paths allow for differentiated instruction and practice

- Flexible resources promote topic reinforcement and accommodate learner preferences

- Rich animation and interactive storytelling create an engaging online experience

- Time-saving teacher tools enrich instruction for whole classes, small groups, and individuals

Pre-K – 6th grade
Language arts, math, science, computing, matematicas, and ESL

Study Island®

Proven practice and assessment

- Automatic feedback and remediation designed to raise student achievement

- Utilize real-time data, intuitive data analytics, and student progress monitoring

- Easy-to-use Test Builder creates custom diagnostic and short-cycle formative assessments

- Teacher Toolkit includes lesson plans, videos, and instructional resources

- Technology-enhanced item types promote higher-order thinking

- Benchmark assessments offer a valid measure of student proficiency
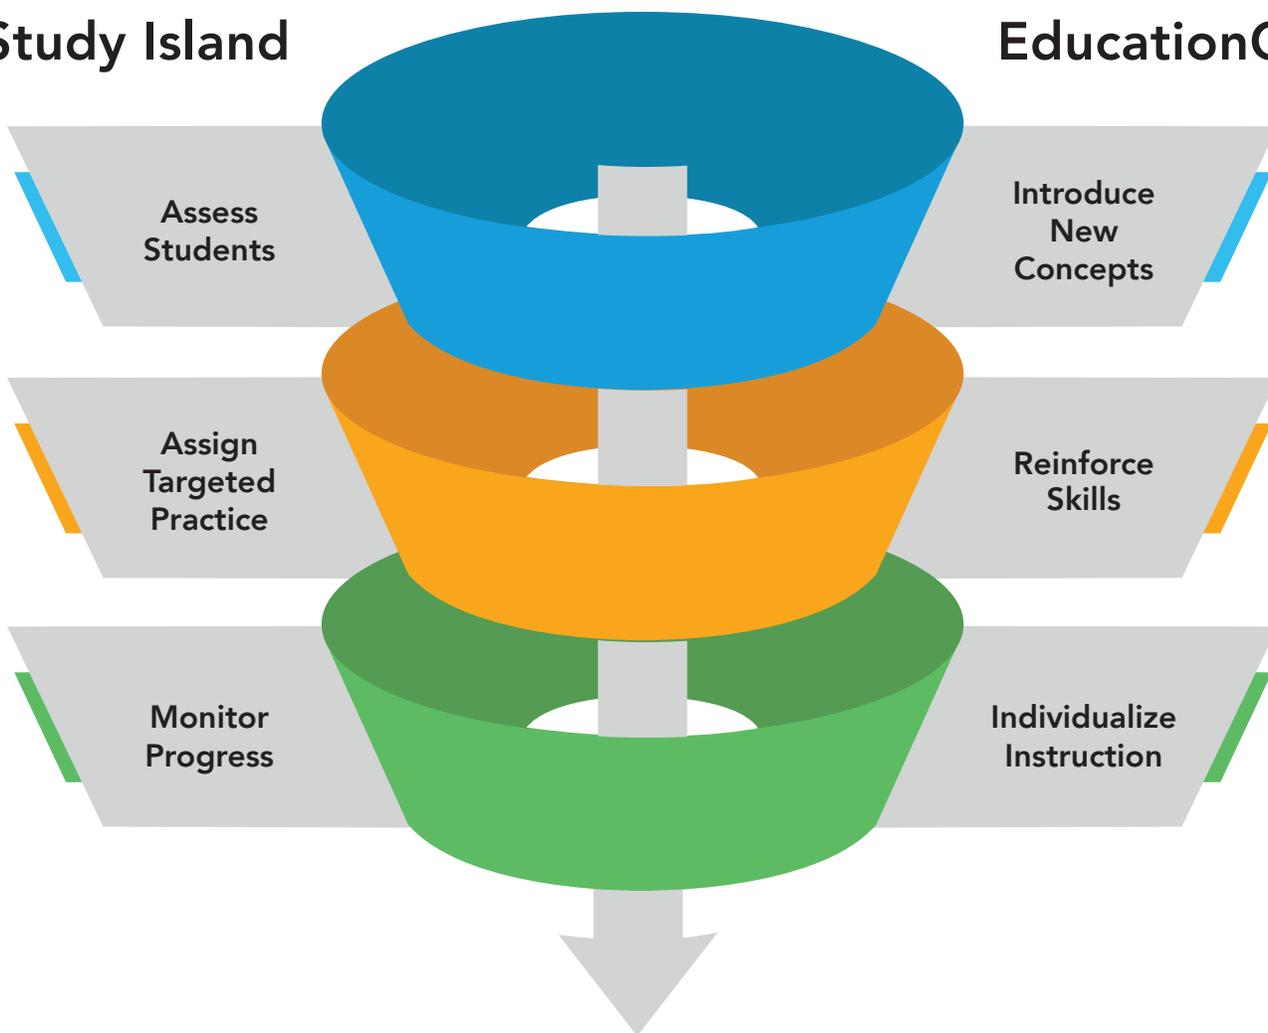

K – 12th grade
ELA, math, science, and social studies

Two programs, one comprehensive solution

At Edmentum, we empower educators with flexible online solutions and professional services that move education forward to meet the changing needs of your classroom.

Study Island

EducationCity

Assess Students

Introduce New Concepts

Assign Targeted Practice

Reinforce Skills

Monitor Progress

Individualize Instruction

Implementation strategies for academic success

Explore these different approaches to successfully pair EducationCity and Study Island and ensure academic success.

Formative assessment

Hone student skills in Study Island, and utilize EducationCity for additional support and remediation.

1. Assign Study Island topics for initial practice and skill reinforcement

2. Gauge performance using Study Island's detailed reporting and data-visualization tools

3. Create individualized learning paths in EducationCity for additional targeted support

Benchmarking progress

Benchmark student progress in Study Island, and then look to EducationCity for additional practice and skills reinforcement.

1. Administer a Study Island Benchmark assessment

2. Assign EducationCity activities and Study Island practice based on student results

3. Re-administer Benchmark assessments in Study Island quarterly to monitor progress

Home-to-school connection

Extend learning beyond the classroom with EducationCity resources, and turn to Study Island to assess mastery.

1. Search EducationCity content by standard or topic to identify engaging instructional resources

2. Assign EducationCity tutorials and activities to students as homework

3. Generate customized Built Tests and assignments in Study Island to measure standards mastery

Individualized instruction

Combine EducationCity's resources with Study Island's standards-based assessments to support whole-class instruction and targeted practice.

1. Introduce a lesson using EducationCity's whiteboard activities and critical-thinking tasks

2. Review lessons and reinforce challenging content in small groups or via stations with EducationCity

3. Offer independent practice and target specific standards with Study Island

Implementing your solution

Edmentum provides you with educational solutions tailored to fit your individual goals, campus resources, and teaching methods. To ensure your success, you will be connected with an Implementation Coach who will collaborate with you to develop a detailed plan for using Study Island and EducationCity together in your classroom, school, or district.

Here's how it works:

Create your solution → Start working toward your goals → Receive continued support from Edmentum
