

Analyzing your data just got easier

Edmentum™ Sensei™ is an unprecedented way for you to seamlessly access and interact with data from Edmentum's online learning products

Data-rich analytics come to life with Edmentum Sensei via intuitive charts, graphs, and visual cues providing the information you need with a true picture of what's going on in your world. This interactive engagement hub, a feature automatically included with Edmentum Assessments™, Plato Courseware®, and Study Island®, dynamically responds to help you identify patterns, measure progress, and glean insights.

- Easily explore onscreen actionable data from Edmentum's solutions
- Make faster, more informed decisions through robust analytics and app-like ease of use
- Visualize and track student progress so that you can focus your attention where it is needed most

Mobile-Optimized for Your Classroom

Efficiently monitor and manage academic progress and achievement to make faster, more informed decisions anywhere, anytime, from your laptop or mobile device.

Easily access and analyze data

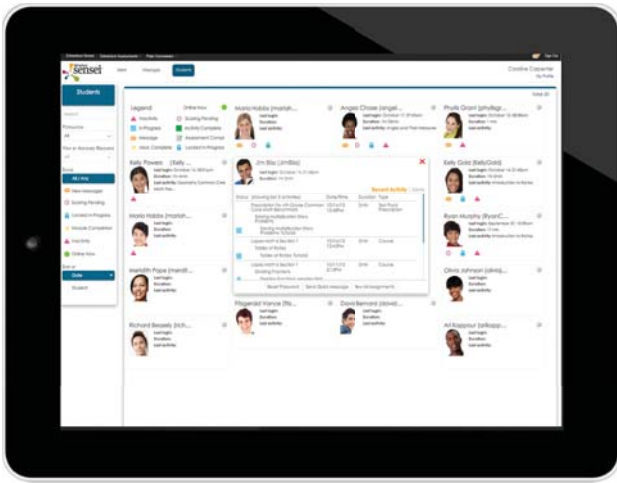

Intuitive analytics and onscreen reporting provide a true picture of what's going on in your world. Monitor student engagement, subject mastery, recent activity, grades, and usage data in just a few clicks.

Connect and engage to improve performance

Connect with students in real time to ask questions, give praise, offer encouragement, or dig a little deeper.

Empower and take action

Quickly identify achievement gaps and immediately take action to intervene. Minimize manual administrative tasks so you can leverage your expertise and spend time doing what you do best.

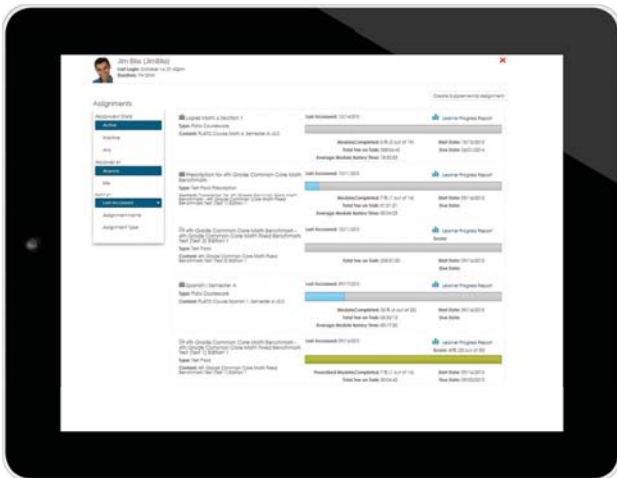

Plato Courseware®—Monitor Course Progress

- Monitor student progress through a course or assignment
- Assign additional content, built to standards, to create personalized learning paths for students
- Unlock mastery tests or reset passwords with one click
- View progress and take action on district and program-level data

Study Island®—Track Standards Mastery

- Examine student progress toward meeting state and Common Core standards
- Provide students with remediation or acceleration assignments directly from the dashboard
- View results for a whole class or individual student

Edmentum Assessments™ — Evaluate Assessment Data

- Assign supplemental material to offer targeted intervention
- Monitor student usage and progress of prescription content quickly from the dashboard
- Create groups to monitor progress of students based on skill, need or structure of program
- View progress and take action on district and program-level data
