

Study Island®

Engaging Online Practice for Student Success

Boost students' confidence with Study Island's proven, data-driven formative assessment solutions built specifically from Ohio's New Learning Standards. Study Island's easy-to-use, data-rich interface is designed to support self-paced individualized learning as well as teacher-led, whole-class instruction.

What it is

- Interactive lessons and activities that reinforce and reward learning achievement
- Real-time progress monitoring and intuitive data analytics
- Technology-enhanced item types designed to promote higher order thinking
- Automatic remediation and real-time feedback

Why it works

- Ensures your students receive quality academic support and practice
- Provides students with immediate feedback and question explanations
- Differentiates instruction with built-in remediation tools to raise individual student achievement
- Makes it easy to take action on real-time assessment data and reports

A key benefit of Study Island is that it makes it easy for teachers to differentiate instruction to meet the needs of each student. Students are motivated because they can learn at their own pace and receive immediate feedback.

Assistant Superintendent, California*

edmentum™

Actionable student data with Edmentum™ Sensei™

Edmentum™ Sensei™ is an unprecedented way for you to seamlessly access and interact with data, and it is included with all Study Island subscriptions. Through Edmentum Sensei, data-rich analytics come to life via intuitive charts, graphs, and visual cues, providing the information you need in a real-time picture of what's going on in your world. With this tool, you can easily track your students' standards mastery and take action directly from the dashboard.

Committed to meet your students

Study Island is leading the way in customizing content to Ohio's New Learning Standards. Study Island's in-house content development team, led by former educators and subject matter experts, has developed meaningful content built

specifically from Ohio's state standards. The program's flexible design enables teachers to easily individualize their instruction and customize the student experience.

Self-paced or teacher-guided

Study Island is ideal for both self-paced, individualized learning or teacher-led, whole-class instruction. Teachers can easily guide students through the program, customize instruction based on student needs, communicate expectations, and create assignments. Students can work through questions using a standard test format, an interactive game format, printable worksheets, or a classroom response system.

Technology-enhanced item types

The first time your students see the new technology-enhanced item types shouldn't be on the exam. Study Island includes thousands of technology-enhanced questions featuring a wide variety of item types, including constructed response, sequence, and hot spot. These rigorous assessment questions are designed to promote higher order thinking and inquiry while preparing students for more rigorous and interactive web-based exams.
