

Diagnostic Solutions for Praxis Core Exam Preparation

The Praxis Series® tests are delivered as a part of the teacher certification process by many state and professional licensing organizations. Edmentum's Praxis Core Test Packs are designed to help candidates prepare for the Praxis Core Tests. We provide rigorous assessments that evaluate learner proficiency against the Praxis Core exam objectives and automatically creates a prescription based on their needs. By identifying any skill gaps, Edmentum Test Packs target the individual needs of each learner, and reduce the time it takes to prepare for the Praxis Core exam.

With our Praxis Core Test Packs teacher candidates can achieve their goals through individualized, effective and targeted support to help prepare for the Praxis test.

Why Edmentum Test Packs:

- Prepare for all three content areas, math, reading, and writing.
- Assess learners against the exam objectives with fixed benchmark tests.
- Easily administer tests to automate fluid individualized prescriptions for every learner.
- Promote higher-order thinking and inquiry with technology-enhanced item types.
- Customize your assessments at the reporting category level to test smaller areas of focus.
