

Place students on the
EXACT PATH
 for personalized learning

Assessment-driven instruction for K–12 reading, language arts, and math

Exact Path makes learning personal by offering adaptive diagnostic assessments combined with individualized instruction to promote growth. Whether you're running a station rotation model in 3rd grade for individualized support or steering 10th graders through closing significant gaps in order to graduate, Exact Path supports each learner's individual academic goals.

Diagnose learning needs with our valid adaptive assessments, or leverage your data from our partners, NWEA and Renaissance

Instruct K-12 students with competency-based curriculum and automatic remediation at the discrete skill level

Target unique learner needs and plan your next move with teacher notifications and digital assignments

Analyze growth, progress, and usage via aggregated data views and specific student reports

Support each unique learning journey

Personalized Instruction		Targeted Intervention
Determine strengths and needs and uncover readiness for skills below, on, and above grade level.	1	Pinpoint each student's specific instructional level, academic needs, and growth goals.
Deliver instruction to take the underdog to growth, level up every kid on the bubble, and move high flyers beyond the status quo.	2	Remediate at the first signs of struggle with multiple opportunities for automated intervention in age-appropriate environments.
Monitor progress to plan small-group learning for targeted reteach or extension activities.	3	Analyze progress and deploy targeted digital assignments or pull lesson plans for teacher-led intervention.
Confer with individual learners, set and persist toward learning goals, and reflect on valid growth measures.	4	Help students own their learning and get back to grade level so they're prepared for future success.

That pathway being there means that student A doesn't have to be on the same pathway as student B... We're all trying to get to the same area, but we aren't all starting in one place.

— Marlin Ramsey, Assistant Superintendent, Beauregard Parish Schools, LA
