

Make learning personal with **EXACT PATH**

Assessment-driven instruction for reading, language arts, and math

Exact Path makes learning personal by offering adaptive diagnostic assessments combined with individualized instruction to promote growth. Whether you're ensuring college and career readiness in an adult education program or running a self-directed learning lab to accelerate and retain your college students, Exact Path supports each learner's individual academic goals.

Diagnose learning needs with our valid adaptive assessments or leverage your existing data to inform precise placement

Instruct with competency-based curriculum that spans K-12 skills to scaffold and target learning for unique needs

Target additional areas for upskilling using digital assignments, printable worksheets, and instructor lesson ideas

Analyze growth, Lexile and Quantile measure gains, progress, and usage via interactive data views and exportable reports

Support each unique learning journey

College & Career Readiness

College Acceleration & Retention

Determine strengths and needs and uncover readiness for entrance exam requirements.

1

Pinpoint each student's specific instructional level, academic needs, and growth goals.

Leverage unique learning paths to upskill for workforce readiness and prepare learners for postsecondary education.

2

Automatically deliver instruction to shore up foundational skills and ensure college retention.

Deploy targeted digital assignments or access instructor resources for 1:1 intervention.

3

Analyze progress and persist toward learning goals, guided by timely data and progress at the discrete skill level.

Foster success by monitoring Lexile and Quantile gains and conferencing with individual learners.

4

Help students own their learning and accelerate through coursework, enabling progress toward a postsecondary degree.

Exact Path is proven to support ELLs and has been approved through the WIDA® PRIME V2™ Correlation for successfully incorporating all four learning modalities.
