

Q INDIVIDUALIZE

every student's
educational journey

Meet students where they are to move learning forward

Your students don't all learn in the same way, so why deliver instruction in the same way? Providing each student with a tailored instructional experience that is paced to individual needs is critical to his or her success.

Edmentum provides you with the tools you need to understand baseline competencies, drive instruction, and ensure that students are making progress toward individual goals and objectives. Our programs are uniquely designed to support all students' academic journeys at the pace they need to succeed.

We support individualized learning with:

- Diagnostic and classroom assessments to measure student proficiency
- Robust instructional content aligned to state and Common Core standards
- Technology-enhanced item types to promote higher-order thinking
- Intuitive online platforms with student support tools and interactive animation
- Rich reports and progress monitoring tools that yield actionable data

Each student having their own individualized path allows students to receive exactly what they need, without their peers being aware that they are doing different work.

—Lee Mierow, Principal,
Wrightstown Middle School, WI

Individualize the academic experience

Let students guide the pace of their learning

All students need content in tune to their instructional needs. With our solutions, students have opportunities to dig deeper into each concept as they work through their very own learning paths toward further achievement. A rich library of online resources offers just-in-time instruction to foster ongoing, independent success.

Provide academically sound content you can trust

You should feel confident that students are engaging with quality content. Our solutions are built to state and Common Core standards, incorporate student support tools, and scaffold the progression of learning to ensure that students experience the appropriate level of rigor throughout their academic journeys.

Stay in tune with how students are progressing

Your students deserve every opportunity to experience success. Smart data collection that follows your students from initial strengths and needs diagnosis through skill practice and eventual standards mastery is critical. Our solutions incorporate reporting and progress monitoring tools to easily measure success every step of the way.
