Ensure students achieve **GROWTH & PROFICIENCY**

Pair Exact Path with Study Island to boost learning potential

As academic expectations for 21st century learners continue to rise, more personalized learning experiences are required. Integrate Edmentum’s research-based, proven online programs Exact Path and Study Island to put students on a path toward success.

**Exact Path**
K–12 reading, language arts, and math

**Study Island**
K–12 math, ELA, science, and social studies

This two-pronged approach to learning allows you to:

**Promote Growth**
Exact Path individualizes learning to ensure that all students work at their appropriate instructional level. Data from adaptive diagnostic assessments provide accurate growth measures, while metrics from each student’s learning path track progress.

**Encourage Proficiency**
Study Island ensures that students meet all on-grade-level expectations with practice and assessment items built to state standards. Data from flexible practice sessions and customizable classroom assessments track progress toward standards mastery.
Empower learning with Exact Path and Study Island

Together, Exact Path and Study Island allow you to diagnose strengths and needs and deliver proven instruction and practice to help all learners achieve growth and proficiency.

Meet Students Where They Are.
Pinpoint each student's precise instructional level using Exact Path's adaptive diagnostic assessments. Each student then receives a tailored learning path to work on at his or her pace.

Achieve Grade-Level Expectations.
Provide practice of grade level standards in alignment with your scope and sequence using Study Island. Students experience high-quality practice engaging with items similar to those on high-stakes assessments.

Reassess and Monitor Growth.
Regular Exact Path Progress Checks adapt a students' learning path, and additional assessment administrations measure growth.

Reassess and Track Proficiency.
Study Island Group Sessions and Built Tests offer customizable standards-based assessments to ensure standards mastery.

Review District, School, Class, and Student-Level Data.
Use multiple data measures to track learning. Drive individualized instruction and support intervention using Exact Path, and improve formative strategies and prepare for summative exams with Study Island.

Achieve Grade-Level Expectations.
Provide practice of grade level standards in alignment with your scope and sequence using Study Island. Students experience high-quality practice engaging with items similar to those on high-stakes assessments.

I feel strongly about Exact Path and Study Island. I mean, I'm a champion for those two programs. I feel like [they are] improving my students, their data, their learning, their understanding.

– Kami Ferguson, 2nd Grade Teacher
Demorest Elementary School, GA
