

# Empower English Language Learners

## Drive ELL Success with Edmentum Programs

English language learners (ELLs) make up an estimated 4.9 million students in America's public-school system, highlighting a growing need for quality educational materials. Edmentum offers three comprehensive options—Reading Eggs and Reading Eggspress, Exact Path, and Courseware—to support English-language development and drive academic success.

### Reading Eggs

Build foundational literacy skills for ELLs in pre-K–6th grade with a dynamic 2-in-1 literacy program.

Reinforce the five pillars of reading, including phonemic awareness and phonics skills.

### Exact Path

Ensure academic growth for your K–12th grade ELLs with assessment-driven learning paths.

Prepare students for the general education classroom by closing skill gaps.

### Courseware

Support entering, emerging, and developing ELLs in grades 6–Adult with Edmentum Courseware's ELL Foundations library.

Promote English-language proficiency with two leveled English language acquisition courses.

Reading Eggs and Reading Eggspress and Exact Path have been approved through the WIDA® PRIME V2™ Correlation process following rigorous, independent reviews.

# Support the Diverse Needs of Your ELLs

## Multimodal learning opportunities

Practice listening, speaking, reading, and writing with engaging lessons, activities, videos, and games that incorporate all four language skills.

## Flexible teaching and learning

Overcome the challenges of teaching in a multilevel classroom, connecting students with multiple, low pressure opportunities to demonstrate mastery and comprehension during independent, small group, or whole class learning.

## Self-paced, scaffolded instruction

Support ELLs at all instructional levels by delivering scaffolded instruction following a diagnostic or placement test to keep students motivated and engaged as they close skill gaps at their own pace.

## Real-time tracking of student success

Access actionable data through a variety of real-time reporting options to identify meaningful learning trends and support both language proficiency and academic success through data points like progress, growth, pacing, and usage.

“ [Edmentum] provides our ESOL teachers with instructional tools to address individual English Language Proficiency growth goals while providing the flexibility to extend learning for developing ELs. ”
