Achieve your goals with expert education consulting

Edmentum consultants are committed to supporting your educators and learners in reaching their goals. Our team brings years of experience in classroom instruction and technology, so educators can confidently use Edmentum solutions. We go beyond product training by focusing on how learning can be enhanced when integrating Edmentum programs into current instructional practices. Our team of consultants partner with district and building level personnel, providing the tools needed to bridge the divide between implementation and student outcomes everywhere learning occurs.

Education consulting and professional learning services are offered in a variety of delivery options to align to your program needs. Our workshops include:

- ✓ **Professional learning** aligned to your program needs
- ✓ **Collaboration and best practices** that enhance the learning experience
- ✓ **Hands-on activities** to demonstrate program integration into classroom practice
- ✓ **Recommendations** to align implementation to student outcomes

End User Workshop - Onsite Workshops offer an engaging, in-person learning experience led by an Edmentum consultant dedicated to supporting your program's success. Workshops are designed to prepare district and school staff to use Edmentum to maximize the learning experience, make instructional connections, and improve student outcomes.

Design Labs - Design labs are hands-on, working sessions created to support you during the initial program set-up. This dynamic lab provides the opportunity to execute the necessary steps to successfully implement Edmentum solutions.

Virtual Workshop - Edmentum's virtual workshops offer a collaborative and interactive learning environment that allows participants to see tasks demonstrated in real time and to ask questions to make connections to their own instructional practices. Edmentum leverages Zoom technology to provide remote trainings with collaborative tools to enhance the learning experience.

On-Demand Webinars - Webinars offer learning opportunities to enhance the use of Edmentum solutions. These sessions target specific features or practices to improve the educator experience. Webinars provide educators the opportunity to get the training they need, when they need it.

Onboarding and Elevate Packages

A successful implementation begins with a strong start. Onboarding packages are designed to help new partner schools and districts set up their Edmentum programs and integrate them into current instructional practices to improve student outcomes. Your onboarding will include some or all of the sessions below based on which program(s) your school or district will be utilizing.

Onboarding Package		
Session Title	Description	Audience
Onboarding Overview	This introductory session is designed to guide administrators in establishing measurable goals for implementation, preparing for program setup, and creating a calendar for professional learning. The session also focuses on best practices to ensure fidelity of program management.	Administrators
Implementation Workshop Topics vary based on program	This session is designed to provide educators with an introduction to using their Edmentum programs. Educators will walk through how to use key program features and how those features are used in a variety of implementation models to increase learner success.	Educators
Best Practices	This data-driven session focuses on the story that data can tell us, the importance of monitoring data on a continual basis, and how data impacts all stakeholders from district administration to students. Specifically, the session takes educators through data analysis and interpretation to the identification of next steps and decisions to be made.	Educators
School/District Choice	Choose session from the a la carte or custom consulting list, or the option to engage in a practice lab with an Edmentum consultant.	Administrators and/or Educators

The Elevate Package provides custom professional learning to support partners who are renewing or extending their implementations.

Elevate Package		
Session Title	Description	Audience
Elevate Your Implementation	This introductory session is designed to take existing Edmentum partners through an implementation review and planning activity that will allow for them to identify implementation strengths and challenges in addition to planning for next steps.	Administrators
Custom Consulting	This session offers choice in content; choose a session from the custom consulting or a la carte list or the option to engage in a practice lab with an Edmentum consultant.	Educators

Custom Consulting Sessions

Custom Consulting services are designed to deepen engagement within our core programs and give education partners the option to choose professional learning that aligns to their unique needs. The following list includes Custom Consulting options education partners may choose from as part of their Onboarding or Elevate Packages.

Exact Path Custom Consulting Sessions

Session Title	Description	Audience
Making Exact Path a Part of Your Core Instruction	Educators will explore how to maximize the power of Exact Path for whole-group and small-group instruction to support just in time practice, remediation, extension, and reinforcement for all learners.	Educators
Engaging and Motivating Learners	Educators will learn how to creatively motivate and engage learners to achieve their goals through the use of mastery trophies, challenge badges, and student and class trackers.	Educators

Courseware Custom Consulting Sessions

Session Title	Description	Audience
Custom Courses Design Lab	Educators will gain an understanding of the purpose and benefits of course customization in Courseware and learn to customize courses to meet the unique needs of their students or school setting.	Administrators and Educators
Grading Policy and Credit Accrual	Educators will explore the gradebook tool and reporting features and then define their course grading policy and credit practice.	Administrators
Supplementing Instruction with Flex Assignment	Educators will learn to utilize the Courseware flex assignment functionality to define supplemental instructional interventions that are designed to meet the needs of all students.	Administrators and Educators
Project-Based Learning (PBL)	Educators will be introduced to specific Courseware content that can be used to support project-based learning experiences in a variety of settings.	Educators

Study Island Custom Consulting Sessions

Session Title	Description	Audience
Game Based Learning with Group Sessions	Educators will experience different approaches for utilizing group sessions to create engaging learning experiences that motivate learners and positively impact student outcomes.	Educators
NWEA Integration Lab	Educators will review how NWEA MAP assessments and RIT scores are connected to students' assigned learning paths. Participants will also learn how educators can monitor learner progress and make instructional decisions that move students toward grade level and content proficiency.	Administrators
Benchmarks Assessments	Educators learn how to integrate benchmark assessments into their practice. Participants will also take a data analysis journey designed to reach informed instructional decisions based on student performance.	Administrators and Educators

A la Carte and Building Capacity Services

A la Carte Services are designed to strengthen educator practice and deepen engagement. The following workshops require a 30-60 minute virtual planning meeting prior to scheduling and delivery.

A la Carte		
Session Title	Description	Audience
Best Practices for Blended Learning	Educators will explore various ways to integrate blended learning into their daily practice in order to increase student success.	Educators
Data-Informed Instruction	Educators will learn to use program data to drive instructional planning and decisions to support the needs of all students.	Administrators and Educators
Classroom Coaching	Educators will receive small group PLC or individualized teacher support through classroom coaching and targeted content meetings.	Educators
Implementation Planning for School Teams	Educators will work together in school teams to create customized implementation plans for their unique setting. Key topics include implementation science, teacher readiness, professional learning, and communication. <i>*This workshop is appropriate for any school or district who wants to kick-start their implementation to deepen teacher engagement and positively impact student outcomes.</i>	School Teams 30 participants [Six (6) school teams made of five (5) participants per team]
Exact Path: Data Coach for School Teams	Educators will work in school teams or PLCs to build assessment literacy and deepen their practice for using data to drive instructional decisions. This four-part workshop series includes two 6-hour onsite sessions and two 1.5-hour virtual sessions. <i>*This workshop is specifically designed for education partners who are using the Edmentum Exact Path diagnostic assessment. Education partners who are using NWEA or Renaissance diagnostic assessments and are interested in building Educators' proficiency in using data should purchase the Data-Informed Instruction workshop noted in the A la Carte Offerings.</i>	School Teams 30 participants [Six (6) school teams made of five (5) participants per team] 15 hours
Best Practices for Engaging Virtual Learners	Educators will understand and implement highly effective and engaging practices for delivering virtual instruction.	Educators

The Building Capacity package follows a train-the-trainer model to support designated district and/or campus staff in the redelivery of Edmentum professional learning sessions to educators in their district and/or school. This service helps education partners accelerate program implementation and adoption, and allows you to always have an in-house expert to support administrators and educators.

Building Capacity for Courseware, Exact Path, and Study Island		
Session Title	Description	Audience
District or School Train-the-Trainer Program	This package consists of three sessions: <ul style="list-style-type: none"> ■ Overview and Planning for Administrators ■ Building Capacity for Instructors ■ Program Review for Administrators 	Administrators and/or Educators

PLC Cohort Packages

PLC Cohort packages are offered for education partners who are newly implementing Study Island or Reading Eggs. They provide an opportunity for school teams to engage in an intimate 5-week PLC experience led by an Edmentum consultant. Participants will learn best practices for implementing Edmentum programs and engage in planning and practice activities with peers.

Study Island PLC Cohort Onboarding Package

	Description	Audience
Week 1	Onboarding Overview Professional Learning Planning and Program Design	Administrators
Week 2	Shared Learning: Individualized Instruction Maximizing Student Growth - Incorporating Study Island in a Blended Learning Environment	School Teams
Week 3	Planning and Practice: Individualized Instruction Collaborate with PLC peers to analyze student data and to plan next steps.	School Teams
Week 4	Shared Learning: Tiered Intervention Maximizing Student Growth - Creating an Integrated Learning Experience to Address Learner Differences and Increase Student Success	School Teams
Week 5	Planning and Practice: Tiered Intervention Collaborate with PLC peers to analyze student data and to plan next steps. Reflecting on lessons learned and planning the road ahead.	School Teams

Classroom Observation: Thought Partnership

Throughout the PLC cohort, educators will work in pairs. Each pair will virtually observe one another and then engage in feedback sessions to enhance student success.

Reading Eggs PLC Cohort Onboarding Package

	Description	Audience
Week 1	Onboarding Overview Professional Learning Planning and Program Design	Administrators
Week 2	Shared Learning: Multimodal Student Learning Creating Joyful Readers – Incorporating the Five Essential Pillars of Reading in a Blended Learning Environment	School Teams
Week 3	Planning and Practice: Multimodal Student Learning Collaborating with PLC peers to analyze student data and to plan next steps.	School Teams
Week 4	Shared Learning: Enhancing Direct Instruction Creating Joyful Readers – Incorporating the Five Essential Pillars of Reading into Whole Group Instruction	School Teams
Week 5	Planning and Practice: Enhancing Direct Instruction Collaborating with PLC peers to analyze student data and to plan next steps. Reflecting on lessons learned and planning the road ahead.	School Teams

Classroom Observation: Thought Partnership

Throughout the PLC cohort, participants will work in pairs. Each pair will virtually observe one another and then engage in feedback sessions to enhance student success.

Pilot Packages

Pilot packages are designed to support education partners as they pilot Edmentum programs to gain a first-hand glimpse of how Edmentum programs can positively impact student outcomes.

Pilot Packages		
Session Title	Description	Audience
Pilot Overview for Administrators	This session is designed for administrators and focuses on pilot planning and program design to ensure complete success.	Administrators
Pilot Overview for Educators	This session focuses on implementation of the specific Edmentum program. The session content varies by program (see the Implementation Workshops in the onboarding packages).	Educators
Best Practices	This session focuses on familiarizing Educators with the story that data can tell us, the importance of monitoring data on a continual basis and how data impacts all stakeholders from district administration to students. Specifically, the session takes participants through data analysis and interpretation to the identification of next steps.	Educators
Pilot Focus Group	This session is designed to engage Educators in a pilot focus group to discuss feedback from the pilot experience and to determine student growth.	Educators

BASE Education Pilot Package		
Session Title	Description	Audience
Pilot Planning	This introductory session is designed to guide administrators through establishing measurable goals for pilot implementation, discussing implementation strategy, establishing roles and responsibilities, and scheduling professional learning.	Administrators
Program Design	This session is designed to guide administrators through program setup to set the program up for success.	Educators
Pilot Workshop Introduction to BASE	This session is designed to introduce Educators, teams, administrators and mental health counselors to the importance of SEL and its impact on student learning and to provide users with an experience of BASE through the lens of a teacher and a student.	Educators, Mental Health Teams, Admins
Implementation Checkpoints	These sessions serve as post-onboarding checkpoints at 30 days, 60 days, and 90 days into the pilot to monitor progress and make adjustments as necessary.	Educators, Mental Health Teams, Admins
