Achieve your goals with expert education consulting

Edmentum consultants are committed to support your administrators, teachers, and learners in reaching their goals. By utilizing an outcomes-focused approach that zeros in on the systemic change management that is needed to achieve successful implementation and adoptions of our programs, Edmentum ensures administrators and teachers can confidently use Edmentum solutions. Not only do we bring years of experience in classroom instruction and technology, but we also go beyond product training by focusing on how integrating Edmentum programs into current instruction enhances learning. Our team of consultants' partner with district and building level personnel, providing the tools needed to bridge the divide between implementation and student outcomes everywhere learning occurs.

All services offer:

- **Personalized Implementation Strategy** aligned to your program needs
- **Professional learning and consulting** opportunities targeting deep program knowledge
- **Hands-on activities** to demonstrate program integration into classroom practice
- **Collaboration and best practices** that enhance the learning experience
- **Implementation Review** to evaluate program usage and optimize progress toward smart goals
- **Recommendations** to align implementation to established student outcomes

Implementation Coaching

Offer personalized implementation coaching sessions that provides admin with the guidance they need to plan a successful Edmentum program implementation.

Onsite Implementation Workshops

Provide an engaging, in-person experience facilitated by an Edmentum consultant dedicated to supporting your program's success. Workshops are designed to prepare district and school staff to use Edmentum to maximize the learning experience, make instructional connections, and improve student outcomes.

Virtual Implementation Workshops

Offer a collaborative and interactive environment that allows participants to ask questions and make connections to their own instructional goals and practices. Edmentum leverages Zoom to facilitate meaningful interactions with collaborative tools to enhance the experience.

On-Demand Implementation Resources

Deliver learning opportunities to enhance the use of Edmentum solutions through on demand webinars and implementation user guides. These resources help guide a successful implementation and target specific features or practices to improve the educator and family experience with the goal of increasing student outcomes.

Implementation & Consulting Services

Onboarding

A successful implementation begins with a strong start. Onboarding packages are designed to help new partner schools and districts set up their Edmentum programs and integrate them into current instructional practices to improve student outcomes.

Exact Path, Courseware, Calvert, Study Island, and BASE Secondary		
Session Title	Description	Audience
Onboarding Overview	Establish measurable goals for implementation and improve student outcomes, prepare for program setup, and create a calendar for professional learning with the guidance of an educational consultant. This meeting focuses on best practices to ensure fidelity of program management.	Administrators
Implementation Workshop <i>Topics vary based on program</i>	Introduce teachers to their Edmentum programs during this interactive workshop. Teachers will experience key program features and connect those features to instructional practices to achieve student outcomes.	Teachers
Best Practices	Familiarize teachers with the story that data can tell us, the importance of monitoring data on a continual basis, and how data impacts all stakeholders from district administrators to students. Participants are guided through data analysis and interpretation to establish next steps and instructional decisions to be made.	Teachers
School/District Choice	Choose an option from the a la carte or custom consulting list or engage in a practice lab with an Edmentum consultant.	Administrators and/or Teachers

Reading Eggs		
Session Title	Description	Audience

Implementation Workshop	Introduction to BASE: Understand the importance of SEL and its impact on student learning. Experience a BASE lesson through the lens of a student and teacher. Discuss the procedures and routines for your unique setting	Administrators or Teachers, Virtual

Augment your program experience during renewal or extend the reach of your implementation with custom professional learning options designed to elevate your implementation.

All Products		
Session Title	Description	Audience
Elevate Your Implementation	Review your existing implementation to identify strengths and challenges to optimize planning for next steps.	Administrators
Custom Consulting	Choose an option from the a la carte or custom consulting list or engage in a practice lab with an Edmentum consultant.	Teachers

Review

Review progress towards SMART goals from the previous year's implementation, receive feedback from key stakeholders, and identify areas to monitor and adjust.

Refine

Redefine targeted outcomes, next steps in the implementation through the Stop, Start, Continue protocol, and expectations for usage.

Grow

Continue to build upon and increase capacity to transform practice, increase adoption, and achieve outcomes.

Execute

Continue to build program knowledge and capacity through professional learning, monitor program implementation, and use program data to drive instruction and monitor growth.

Evaluate

Review progress, identify areas to monitor, and adjust implementation for the remainder of the year.

Building Capacity

Follow a train-the-trainer model to support designated district and campus staff in the redelivery of Edmentum professional learning sessions to teachers in their district or school. Accelerate program implementation and adoption with in-house expertise to support your own team's implementation goals.

Exact Path, Courseware, and Study Island		
Session Title	Description	Audience
District or School Train-the-Trainer Program	<p>This package consists of three sessions:</p> <ul style="list-style-type: none">• Overview and Planning for Administrators• Building Capacity for Instructors• Program Review for Administrators	Administrators and/or Teachers

Custom Consulting Opportunities

Deepen engagement within our core programs and choose professional learning that aligns to your unique needs. Choose from this list as part of an Onboarding or Elevate Package.

Exact Path		
Session Title	Description	Audience
Making Exact Path a Part of Your Core Instruction	Explore how to maximize the power of Exact Path for whole-group and small-group instruction to support just in time practice, remediation, extension, and reinforcement for all learners.	Teachers
Engaging and Motivating Learners	Learn how to creatively motivate and engage learners to achieve their goals through the use of Mastery Trophies, Challenge badges, and student and class trackers.	Teachers

Courseware		
Session Title	Description	Audience

Calvert Learning		
Session Title	Description	Audience
Family Learning Guide Overview	Get introductory guidance through using your program and supporting students as a learning guide. Family members will walk through how to use key program features and how to partner with teachers to support learner success.	Family Learning Guides

A la Carte Services

Strengthen your practice and deepen programmatic engagement. The following workshops require a 30–60-minute virtual planning meeting prior to scheduling and delivery.

All Products		
Session Title	Description	Audience
Best Practices for Blended Learning	Explore various models of blended learning, analyze instructional strategies, and determine necessary routines and procedures to integrate blended learning into their daily practice in order to increase student success.	Teachers
Data-Informed Instruction	Learn how to use program data to drive instructional planning and decisions to support the needs of all students.	Administrators and Teachers
Classroom Coaching	Receive small group PLC or individualized teacher support through classroom coaching and targeted content meetings.	Teachers
Implementation Planning for School Teams	Support large district implementations with unique needs requiring a specific approach to planning and execution. School educator teams will have the opportunity to assess implementation readiness, align goals and initiatives, and create customized implementation plans for their unique settings. Key topics include implementation science, teacher readiness, professional learning, and communication. <i>*This workshop is appropriate for any school or district who wants to kickstart their implementation to deepen teacher engagement and positively impact student outcomes.</i>	School Teams 30 participants [6 school teams made of 5 participants per team]
Exact Path: Data Coach for School Teams	Work within collaborative school teams or PLCs to build assessment literacy and deepen their practice for using data to drive instructional decisions. Educators will solidify data review structures and identify and examine multiple data points. In addition, they will compose goals to measure student success and evaluate effectiveness through micro data coaching sessions. This four-part workshop series includes two 6-hour onsite sessions and two 1.5-hour virtual sessions or can be delivered entirely virtual. <i>*This workshop is specifically designed for education partners who are using the Edmentum Exact Path diagnostic assessment. Education partners who are using NWEA or Renaissance diagnostic assessments and are interested in building teachers' proficiency in using data should purchase the Data-Informed Instruction workshop noted in the A la Carte Offerings.</i>	School Teams 30 participants [6 school teams made of 5 participants per team] 15 hours
Best Practices for Engaging Virtual Learners	Understand and implement highly effective and engaging practices for delivering virtual instruction.	Teachers
