

Place students on the **EXACT PATH** for individualized learning

Individualized learning paths for Oklahoma K–12 reading, language arts, and math

Students don't all learn in the same way, so why deliver instruction in the same way? Edmentum Exact Path's individualized learning paths ensure that students receive a tailored learning playlist of robust curriculum that is designed to give them agency over when, where, and the pace in which they learn. Driven by your students' Northwest Evaluation Association™ (NWEA™) Measures of Academic Progress® (MAP®) Growth results, together these rich tools make up our individualized learning solution.

Designed to help you personalize learning by:

- Incorporating carefully crafted content specific to each student's needs—whether below, on, or above grade level
- Using high-quality, rich multimedia curriculum created by in-house subject matter experts
- Providing students at all instructional levels with a complete learning progression of valid curriculum through 12th grade
- Addressing Oklahoma Academic Standards, including speaking and listening standards
- Ensuring college and career readiness with coverage of rigorous knowledge and skills in core academic disciplines including reading, language arts, and math
- Motivating students with built-in Mastery Trophies and teacher-defined learning Challenges

4

No more than four skills are presented to a student at one time to keep motivation high

3

Three different learning interfaces offer intuitive navigation and functionality for K–2nd, 3rd–5th, and 6th–8th grade students

4,900

Over 4,900 different learning activities available for individualized instruction, practice, and assessment

Individualize instruction

Scaffold learning with high-quality curriculum

By uploading MAP Growth assessment Rasch unit (RIT) scores, students automatically receive an individualized pathway of content just right for them. The illustration below provides an example of how no more than four skills are selected at once, and what curriculum components each lesson module might contain.

Progress Checks

After a student completes four skills, a Progress Check is dynamically built and administered to both spiral learning and ensure students are ready to receive additional skills. Scores inform and adapt a student's learning path.

Evaluate Progress

Student summary reports detail all learning path activity, track progress, and help teachers plan for instruction and connect with parents and stakeholders.
