

EdOptions Academy

K-12 student-centered virtual learning

To meet the needs of all learners in your district, providing virtual learning options is a necessity. EdOptions Academy is a fully accredited Kindergarten through career online school that pairs Edmentum's award-winning Courseware and Calvert Learning curricula with state-certified teachers, expert program management, and holistic student and instructional support services to help educators meet the needs of more learners.

Retain enrollment with an in-district virtual school that meets learners' individual interests, schedules, and goals

Offer alternative pathways to graduation for students who have struggled to thrive in the traditional classroom

Address staffing shortages with accredited core and elective courses led by certified teachers

Maximize school resources by partnering with Edmentum to provide fully virtual courses and instructional support services

In 2019, students enrolled in EdOptions Academy courses **maintained a 92% course passing rate**. This success starts with strong relationships—95% of students say their EdOptions Academy virtual teacher cares about their success.

Instructional Services to Power Virtual Learning

EdOptions Academy offers a wide range of instructional services so that you can build a sustainable virtual, hybrid, or blended learning program tailored to the needs of your district.

Supported by District Staff

Digital Curriculum

Edmentum's research-based K-12 digital curriculum is perfect for use in any learning environment.

Supported by Edmentum Staff

Virtual School

Edmentum can partner with you to develop and launch a complete virtual learning program with instruction and student services provided by Edmentum staff.

Supported by both District and Edmentum Staff

Grading Service

Give your teachers the freedom to focus on teaching and let our qualified grading assistants handle grading student assignments and providing detailed and relevant feedback.

Virtual Teacher Mentoring

Empower teachers to become virtual learning superstars with professional learning and coaching from Edmentum's expert virtual teachers. Participants collaborate with a cohort of other educators and earn an Edmentum virtual teaching certification.

Foundational Skills Instruction

Give teachers the support they need to address unfinished learning and skill gaps in the virtual or physical classroom by providing live, supplemental instruction on key foundational skills taught by certified teachers.

Teacher of Record

Provide all the courses your students need and want through Edmentum's virtual course offering. Our online courses are taught by highly qualified, state-certified teachers who are specially trained in virtual teaching and learning.
