

ACHIEVE

Greater Success with Instructional Services

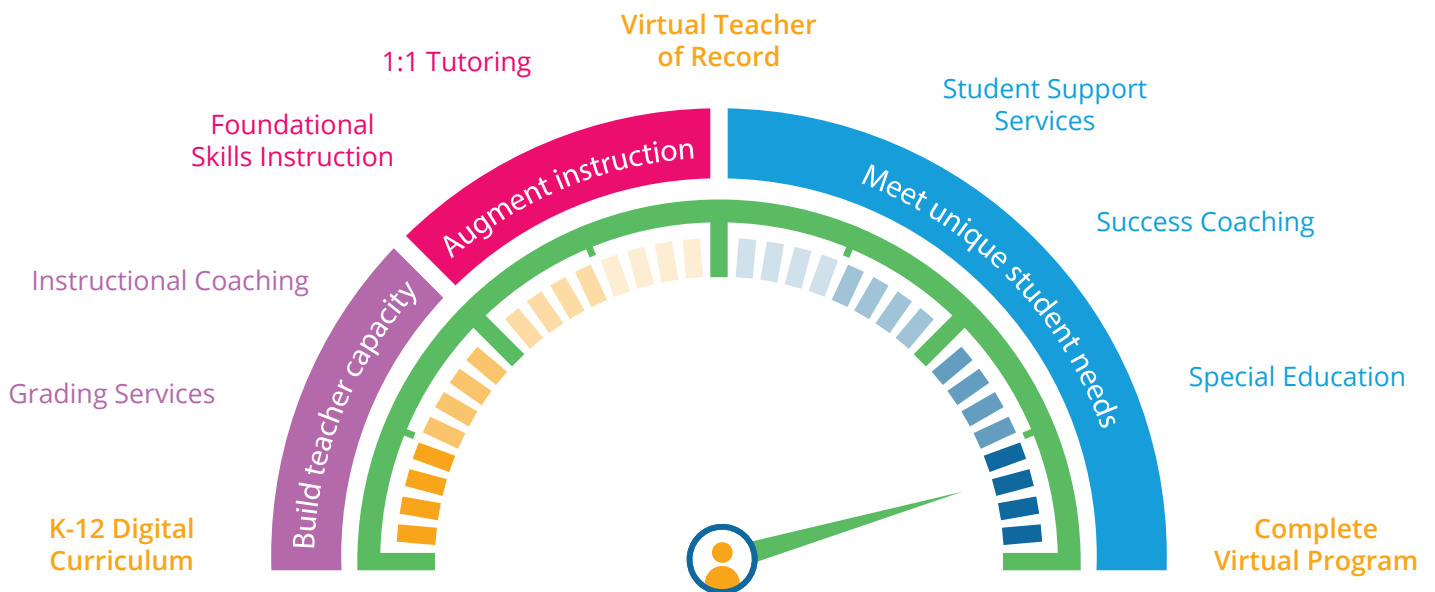

We know successful student learning features exceptional teaching at the center and is only made stronger by the technology and programs your students use. Our instructional services are designed to amplify your teaching practices with an added layer of guidance, support, and expertise to enhance blended and virtual instruction models.

You can:

Build teacher capacity with grading and instructional coaching.

Augment instruction with additional tutoring and targeted skill building.

Meet unique student needs, academically and personally, inside your virtual program.

Who is behind the success of our instructional services?

Behind each instructional service lies a top-notch team of state-certified teachers, dedicated coaches, high-quality tutors, expert grading assistants, and IEP consultants passionate about helping students learn.

What's your need?

How can we help?

Layer in High-Impact Tutoring & Targeted Instruction

1:1 Tutoring via FEV Tutor

Offer live 1:1 tutoring via tailored instruction, homework help, and coursework support to supercharge learning and accelerate success.

Add to 2–12 EdOptions Academy, Courseware & Apex Courses

Foundational Skills Instruction

Explore two options for targeting foundational skills:

- Employ live virtual instruction to develop key foundational math and reading skills critical to unlocking future academic success
- Access enhanced instructional coaching to empower your teachers with program and data expertise, while also receiving live math and reading virtual instruction for students

Add to your K-12 Exact Path implementation

Build Teacher Capacity for your Blended or Virtual Program

Grading Service

Allow expert grading assistants to provide high-quality grading and student feedback, letting your teachers focus on what they do best—teaching.

Add to Calvert & Courseware

Instructional Coaching

Prepare educators to teach effectively in the virtual classroom, building capacity and confidence through instructional coaching, mentoring and PD, with an optional certification.

Add to Calvert, Courseware & Apex Courses

Meet Unique Student Needs in Your Virtual Program

Student Support Services

Grant students and parents a dedicated live virtual support line when they need it most for guidance on such topics as quick homework help, guidance for lost logins, troubleshooting course access, or support on understanding a rubric for a specific assignment.

Included for all ALVS; Add to EdOptions Academy

Success Coaching

Support the needs of the whole learner with dedicated coaches who use a tiered system of support focused on developing student skills and behaviors that enable greater success personally and academically.

Add to 6–12 EdOptions Academy or ALVS; Utilizes 6–12 BASE Education (included)

Special Education

Bring in skilled virtual IEP Consultants to support qualified students through accommodation and modification teacher coaching, curriculum supports for learners, benchmarking and growth tracking, and ongoing stakeholder communication.
