| Education and Classroom Practice | |
|---|---|
| **Indicator** | **Edmentum Alignment** |
| **Authentic Learning** | Edmentum incorporates authentic activities throughout our K–12 online program offering.<br>For students in grades 6–12, **Edmentum Courseware** provides over 400 core, CTE, and elective courses.<br>Edmentum's **industry-leading CTE course library** of over 100 courses covering all 16 career clusters ensure that students gain exposure and instruction in career fields that interest them. Additionally, Edmentum offers in-depth paths in IT, Health Science, and Hospitality & Tourism that prepare students for certification. CTE courses include authentic learning activities that work well alongside additional hands-on industry-based instruction.<br>For students looking to explore a variety of different career options and to build skills they will need in any future workplace, **Edmentum's Career Explorations** provides lessons on time management, communication, teamwork, and practicing a strong work ethic.<br><br>Easy-to-use customization and the Flex Assignments feature in Edmentum Courseware mean that additional career-focused, hands-on, and real-world activities can be assigned by themselves or added to an existing course.<br><br>For students in grades K–12, Study Island, Edmentum's formative assessment and practice program, **includes 120 cross-curricular project-based learning activities, and an additional 95 real-world focused math projects.** These activities provide detailed lesson plans and rubrics, making it easy for teachers to implement the projects and push students to apply what they have learned in real-world contexts.<br><br>In Edmentum Exact Path, Edmentum's K–12 personalized learning and intervention program, **students encounter real-world scenarios and activities built into lessons and practice activities.** |
| **Digital Assessment to Optimize Test Development, Administration, and Analysis** | All Edmentum programs include high-quality digital assessments and robust reporting for easy access to actionable data.<br><br>In **Edmentum Courseware**, students encounter unit pre-tests to assess prior knowledge, short mastery tests to assess mastery of each module, unit posttests to assess mastery of instructional units, and end-of-semester tests that cover the content in the entire semester course. These assessments are |

| Education and Classroom Practice | |
|---|---|
| **Indicator** | **Edmentum Alignment** |
| **Digital Assessment to Optimize Test Development, Administration, and Analysis (cont.)** | embedded in the course, system graded, and results are available immediately. Educators can view results for individual students and provide messages and feedback on progress through the platform. Additionally, easy-to-use reports, data-visualization, and a robust gradebook make sharing data for collaboration or reporting purposes quick and easy.<br><br>**Edmentum's Study Island** is a formative assessment and practice tool that makes it possible for educators to assess students on the spot, at the end of a lesson, or at the end of a unit. Assessments and practice are automatically graded, and students and educators have quick and easy access to results through a data dashboard and a variety of simple reports.<br><br>**Edmentum Exact Path** offers a valid and reliable adaptive diagnostic assessment that ensures all students receive a unique testing experience that precisely pinpoints their instructional level, strengths, and needs. Students receive an individualized learning path based on their results, and detailed reports provide a rich level of detail on student results. Embedded formative and interim assessments measure student progress as they work through their learning paths. |
| **Digital Citizenship** | Edmentum programs promote digital citizenship in several ways:<br>• Edmentum is Family Educational Rights Privacy Act compliant<br>• Online courses provide tips and modules to help students navigate the digital world<br>• Edmentum consultants provide professional learning to help teachers support their students using online programs<br>• [Edmentum's EdOptions Academy has the ISTE Seal of Alignment for Digital Citizenship](#) |
| **Digital Learning Tools and Content** | Edmentum partners with schools and districts to understand the outcomes that educators are working toward. Then, we determine which Edmentum programs will best address their needs.<br>Edmentum's programs are proven effective and designed to address a wide range of K–12 educational needs:<br>• Personalized learning<br>• Intervention<br>• Practice and test preparation<br>• Formative assessment<br>• Benchmark assessment |

| Education and Classroom Practice | |

| **Indicator** | **Edmentum Alignment** |
| **Digital Learning Tools and Content (cont.)** | • Foundational literacy<br>• College and career readiness<br>• Online course needs<br><br>Once program needs are determined, we'll set goals, develop a strategic plan to achieve them, and facilitate the necessary change management to get your program up and running successfully. |
| **Student Driven, self-directed learning**<br><br>**Student Driven, self-directed learning (cont.)** | Edmentum programs are designed to allow students to take ownership of their own learning. All programs are completely web-based allowing students to access content at any time and from any internet-connected device.<br>All programs are designed to be used both independently by students and/or with educator guidance.<br><br>**Edmentum Courseware** is built using a constructivist learning pedagogy, meaning that students build their understanding through engaging with the content. Integrated pretests allow students to move past content they know and focus on what they don't. Built-in projects allow students to apply what they've learned to real-world problems.<br><br>**Edmentum Exact Path** provides adaptive diagnostic driven individualized learning paths, so students are always working on content that is at the just-right level for them. Built-in trophies, and teacher created challenges allow students to take ownership of their own learning and progress.<br><br>**Edmentum's Study Island** provides a simple and easy-to-use student interface that promotes self-directed learning. Students simply select a topic, review a print or video lesson, and engage in standards-based formative practice as they work toward mastery. Students earn Blue Ribbons for mastery and results are recorded and easily accessible, so students always know their strengths and weaknesses to set goals for improvement. |
| **Computer Science** | Edmentum Courseware provides multiple courses focusing on computer science and information technology that students can take individually or as part of an IT pathway. If teachers aren't available, courses can be taught by our state-certified virtual teachers.<br>Available computer science courses include: |

| | educators and provides an opportunity for educators across the world to come together and share ideas and insights. Edmentum hosts a free educator summit a few times a year to provide further networking and idea sharing for educators. |
| **Professional Learning Plan** | We understand that implementing a new program can be challenging. Edmentum partners with you to provide the educational consulting and support you need to successfully implement your Edmentum programs and achieve your goals.<br><br>Our team of educators will help you:<br>• **Develop** a customized plan aligned to your objectives<br>• **Build** capacity through professional learning and coaching<br>• **Evaluate** progress toward outcomes and adjust as needed<br>• **Achieve and exceed** your program objectives |
| **Student Choice** | Edmentum programs can be used in both student-directed and teacher-led environments and are 100% web-based, which means they are accessible from any internet-connected device. With multiple opportunities to demonstrate mastery and the ability to work anytime and from anywhere, students can take ownership over their learning experience. |
| **Extended Learning Outside the school Day** | Edmentum's subscriptions include 24-hour access so no additional purchases are required for use outside of the school day. Also, Edmentum programs are 100% web-based, so they are accessible from any internet-connected device. |

| Leadership | |
|---|---|
| **Indicator** | **Edmentum Alignment** |
| **A culture of Innovation, Collaboration, and Empowerment** | Edmentum's suite of programs provide the flexible high-quality curriculum and assessment to enable even the most innovative of instructional approaches. And, our team of expert consultants work with you to put a strategic plan in place and facilitate the necessary change management and professional learning to promote success. |
| **Measuring Success Using Data** | Edmentum programs provide robust reporting so that student results are easy to access and understand for teachers and administrators. You'll always know how your students are performing. Additionally, our team of consultants will work with you to set goals and help you monitor progress toward achieving them so that you can keep a pulse on ROI and adjust when necessary. |
| **Professional Learning to Support Integrated Instruction** | Edmentum provides the ongoing professional learning that schools and districts need to successfully implement online and blended learning. Learning about Edmentum program fundamentals will be a part of your organization's professional learning, but our consulting doesn't stop there. Educators will participate in a variety of interactive experiences aligned to your objectives and tailored to the needs of the participants. Professional learning topics include: <br> • Instructional best practices <br> • Tiered intervention models, including RTI and MTSS <br> • Assessment literacy <br> • Data-driven instruction <br> • Blended Learning |
