Student confidence, investment, and progress

HOW IT WORKS

- 1 Karlee faces challenges in the traditional school environment.
- 2 She enrolls in an alternative program, where students work in a flexible environment with the support of program coordinators.
 - **Flexible model:** All online or some online
 - **Flexible schedule:** Half-day, full-day, evening, virtual / anytime
- 3 The flexibility, comfort, and support Karlee feels with the new environment and instruction gives her the focus and momentum she needs to earn her credits and stay on track to graduation.

THE RESULT

The Principal

Students consistently make it to graduation because the curriculum covers every subject, lets students work on any schedule, and helps them when they get stuck.

The Student

With the support and flexibility she gets, Karlee feels the hope she needs to stay on track and engaged.

Students here have a lot to handle, often with family, academics, work, and personal issues. It's amazing what this environment helps them accomplish.

Mr. Jones,
Principal

I had a lot of trouble in school before, but things have felt better here and it's easier to fit around work. And thank goodness for Mr. Jones! He makes it possible.
