

Northstar Workforce Readiness 2014 GED® Test Preparation Program

A GED credential is an essential step on many adult-learners' paths toward career success or further education. Help your students reach this important milestone with the Northstar Workforce Readiness preparation program for the GED.

Build Confidence to Ensure Success

Our program for the GED test provides self-paced, individualized instruction for learners getting ready to take the 2014 GED. We have collaborated with the GED Testing Service® to build a program that is closely aligned with the skills and competencies being measured on the revamped 2014 test. Practice questions make use of technology-enhanced item types to familiarize students with the type of questions they will see on the new GED test. Automated grading, reporting and immediate feedback help to identify learning gaps and improve skills.

Why It works

- Program offers 24/7 anytime, anywhere access
- Full-length practice tests available at any time
- Built to the GED content specifications
