

# Edmentum Efficacy Research: Elementary Supplemental Programs

## Edmentum Invites Your Participation

Congratulations! Your district has been identified as a candidate for participation in an efficacy study of learning and impact Edmentum solutions have on driving student outcomes. Edmentum serves more than ten thousand districts and millions of students every year through engaging curriculum, research-based assessment for learning and quality education services. This study will specifically investigate how teachers use curriculum materials and/or assessment data to drive instruction in order to promote student learning and positive academic outcomes. In partnership with an independent research contractor, this study is designed to meet the most rigorous standards in K-12 education research as specified by the What Works Clearinghouse and the federal Every Student Succeeds Act (ESSA).

## Why Should My School or District Participate?

Rigorous, efficacy conducted research is critical to furthering development of online education tools and implementation models that are truly beneficial to students and educators. Your participation will directly contribute to the body of knowledge informing technology best practices in the classroom.

In addition to being part of cutting-edge research, participants will be compensated for their time and efforts with the following incentives:

- One Edmentum product free of charge for participating classrooms for the duration of the 2021-22 school year.
- \$200 Amazon gift card provided to all participating teachers for classroom use
- Eligibility for additional prizes and giveaways during the study

## Participant Requirements

- Administer the **Edmentum diagnostic assessment** in Math and reading for grades 3-5 to participating students three times during the school year during a two-week window specified by Edmentum
- **Use Edmentum products weekly** for a specified amount of time in conjunction with classroom instruction
- Work with Edmentum to securely and confidentially share:
  - student **demographic data** such as race, ethnicity, income, ELL status, SPED status, etc.
  - student **state assessment results** from the 2020-2021 and 2021-2022 school years
- Participate in **teacher professional development** 2-3 times during the school year
- Willingness for **Edmentum to randomly assign teachers to a specific product implementation**
- Sign a three-way **data sharing agreement** with Edmentum and a third-party research organization

## Questions and Contact

To learn more, [fill out this interest survey](#) and a member of the Edmentum Research team will be in touch regarding next steps for participation. Questions? Contact Dr. Audra Kosh, Sr. Research Scientist, at [audra.kosh@edmentum.com](mailto:audra.kosh@edmentum.com).
