

Summer Practice

Fight summer learning loss and encourage your child to use Study Island over the summer.

In our classroom, we are using Study Island as an online learning resource to help students master the standards. Since Study Island is web-based, students will be able to continue their learning outside of the classroom—even during the summer!

- **How can I help my child improve?**
Students can lose up to 3 months of learning over the summer break. Just 30 minutes of consistent practice per subject a week can help your child grow. Encourage them to take a break from the sun and get that practice in so that they don't fall behind.
- **Where can I find my child's work?**
From the navigation bar on the left, you have access to your child's class assignments. Once your child has passed a topic, you will see a Blue Ribbon next to that topic and they can move on to a new one.
- **Where can I monitor my child's progress?**
Log in to Study Island with the username and password shown below. Once you are in, click on "My Reports". Click on a report and select the appropriate grade level.

How to login:

- Visit www.studyisland.com/login and click **login** under "Study Island for Schools".
- Enter your student' login details.

Your login details:

Username: <input type="text"/>	Password: <input type="password"/>
